SUMMARY

Laravel Backend Developer with 2+ years of experience building scalable, secure, and high-performance web applications. Proven expertise in RESTful API development, database design, authentication systems, and performance optimization for fintech, loan, and educational platforms.

TECHNICAL SKILLS

Backend: PHP, Laravel, MVC Architecture, RESTful APIs, Authentication & Authorization

Database: MySQL, Query Optimization, Indexing, Transactions, Data Integrity

Frontend: Blade Templates, JavaScript, Bootstrap, Tailwind CSS

Tools: Git, GitHub, Postman, Swagger, CPanel

Practices: Secure API Design, Performance Optimization, Debugging, Agile/Scrum

PROFESSIONAL EXPERIENCE

Tecjaunt   **Apr 2025 – Present**
Backend Developer (Laravel)   *Lahore, Pakistan*
- Engineered 500+ RESTful APIs supporting scalable investment and loan management systems.
- Implemented secure authentication, authorization, and approval workflows for financial operations, ensuring 100% data integrity.
- Optimized database queries, reducing average response time by 40% and supporting 10,000+ concurrent users.

Trisage Solutions   **Jan 2024 – Mar 2025**
Backend Developer (Laravel)   *Lahore, Pakistan*
- Architected robust Laravel backend systems, structuring databases and server-side logic for scalable web applications.
- Streamlined relational database schemas, boosting query efficiency by 35%.
- Collaborated with cross-functional teams to deliver maintainable backend solutions on schedule.

PROJECTS

EduX – AI-Powered Educational Platform
Backend Developer (Laravel)   *Final Year Project*
- Engineered backend systems connecting students with mentors and companies for AI-driven learning.
- Built RESTful APIs for learning modules and career matching, serving 1,000+ users efficiently.
- Integrated Stripe payments and documented APIs with Swagger, improving developer onboarding by 50%.

Construction AI – Management Platform
Backend Developer (Laravel)
- Developed hierarchical task management system with role-based access control, handling 500+ tasks daily.
- Integrated approval, rejection, and progress-tracking workflows for construction projects, reducing delays by 30%.
- Built subscription billing and plan management modules for companies, improving revenue tracking efficiency.

Barakah Vault – Investment Platform
Backend Developer (Laravel)
* Developed a scalable investment platform with multi-role access, portfolio tracking, and transaction history.
* Built secure investment approval workflows, profit withdrawals, and bank-integrated transaction handling.
* Constructed enhanced MySQL schemas and RESTful APIs ensuring data integrity and performance.

EconCruise – Loan Management System
Backend Developer (Laravel)

* Built a loan management system processing 1,000+ transactions daily, ensuring secure and reliable borrower-lender workflows.

* Engineered secure workflows for loan disbursement, repayments, and funding decisions, ensuring transactional consistency.

* Ensured transactional consistency and scalability using Laravel and MySQL.

EDUCATION

Superior University Lahore   **Jul 2023**
Bachelor of Software Engineering   *Lahore, Pakistan*
